

# Josh Soave

## Software Engineer

Atlanta, GA | [joshsoave.com](https://joshsoave.com)  
[github.com/joshuasoaave](https://github.com/joshuasoaave)  
[joshua.soave@gmail.com](mailto:joshua.soave@gmail.com)

## Relevant Experience

### Software Engineer

4th Down Solutions

Remote

Oct 2020 - Present

- Built 8 **React** functional components for a learning management app using **Typescript** over the course of 4 one week Agile sprints
- Refactored 3 previously built React components from Javascript to Typescript and **Material UI** to improve the application's user experience
- Coordinated with a UX Designer on a revamped styling for the application's launchpad
- Updated previous styling for the launchpad with **CSS Grid** for a more responsive layout
- Used **Git** for version control and refactored code based on weekly code reviews
- Designed responsive layouts for mobile and desktop use with **HTML5** and **SCSS**
- Communicated daily with teammates using Wrike, Slack, and Zoom

### Software Engineer

Voyageurs - General Assembly

- Collaborated with 2 software engineers to create a single page application using **MongoDB**, **Express**, **AngularJS**, and **Node.js** in a one week Agile sprint
- Created 4 **AngularJS** methods in the controller that enabled users to create, update, delete, and edit their list of National Parks to visit
- Implemented search and sorting features using custom **AngularJS** filters

### Flight Attendant

Delta Air Lines

Atlanta, GA

Oct 2015 - Jul 2020

- Awarded two Gaining Altitude awards for outstanding customer service
