Projects

Rufus Museum

[Live Project](#) [Github](#)

- Implemented a virtual museum app with **React**, **Node.js**, and **Express**.
- Collaborated with a UX designer to implement their wireframe for an improved user experience
- Designed a **REST API** for museum data and deployed the API to Heroku
- Stored data on a **NoSQL** database **MongoDB**
- Worked with **NPM** package bcrypt to allow for password hashing
- Used **Axios** to make HTTP requests to the API of museum data I developed

Voyageurs

[Live Project](#) [Github](#)

- Collaborated with 2 software engineers to create a single page application using **MongoDB**, **Express**, **Angular**, and **Node.js**
- Developed search and sort features for the National Parks using **Angular** directives
- Merged our code and did code reviews using **Git** and **GitHub**
- Stored data on a **NoSQL** database **MongoDB**

AJ's Adoption Agency

[Live Project](#) [Github](#)

- Partnered with another software engineer to develop a single page pet adoption application with a **React** frontend and **SQL**, **PHP**, and **PostgreSQL** backend
- Created **SQL** queries to create, update, get, and delete pet info using **PHP**

Pokemon Quiz App Game

[Live Project](#) [Github](#)

- Utilized **JQuery** to dynamically change the page based on user interaction with the game
- Created an **AJAX** request to a 3rd party REST API to randomly generate a Pokemon's name

Relevant Experience

Software Engineering Fellow

Remote

General Assembly

Apr 2020 - July 2020

- Studied the latest front-end frameworks, programming languages, tools, and methodologies including: HTML, CSS, JavaScript, AngularJS, React, JQuery, SQL, Git, and GitHub

Flight Attendant

Atlanta, GA

Delta Air Lines

Oct 2015 - July 2020

- Awarded two Gaining Altitude awards for outstanding customer service
- Adapted to constantly changing flight schedules during irregular operations

Education

General Assembly

Remote

Software Engineering Immersive

Apr 2020 - July 2020

Mercer University

Macon, GA

Bachelor of Arts Political Science

Aug 2011 - May 2015

Skills

Front End: JavaScript | HTML | CSS | AngularJS | React | JQuery | Bootstrap

Back End: Node.js | SQL | PostgreSQL | PHP | MongoDB | Express

General: Git | GitHub | MVC | Responsive Design | Web Development | Heroku
