# Joshua Soave
## Software Engineer
Atlanta, GA | [LinkedIn](#) | [Portfolio](#)
[joshua.soave@gmail.com](mailto:joshua.soave@gmail.com)

---

## Skills

**Front End:** JavaScript | HTML | CSS | React | AngularJS | SASS | JQuery
**Back End:** Node.js | Express | Mongo | MongoDB | SQL | Postgres | Express
**General:** Git | GitHub | RESTful APIs | Responsive Design | Unit Testing | Web Development

## Projects

**Rufus Museum**

Implemented a virtual museum app with **React**, **Node.js**, and **Express**. Collaborated with a UX designer to implement their prototype and mockups. Designed an API for museum data and deployed the API to Heroku. Stored data on a **NoSQL** database **MongoDB**

[Live Project](#)        [Github](#)

**20 Wonders of 2020**

Developed an app with **Node.js**, **Express**, **EJS**, that allows users to vote on a list of 20+ new world wonders candidates for 2020. Utilized the **NoSQL** database **MongoDB** for data storage
[Live Project](#)        [Github](#)

**Voyageurs**

Collaborated with 2 software engineers to create a single page application using **MongoDB**, **Express**, **AngularJS,** and **Node.js**. Merged our code and did code reviews using Git and Github.
[Live Project](#)        [Github](#)            **Username:** demo **Password:** password

**AJ's Adoption Agency**

Partnered with another software engineer to develop a single page pet adoption application. Implemented the **PHP**, **SQL**, and **Postgres** backend and deployed our project online to Heroku. Merged our code and did code reviews using Git and Github.

## Relevant Experience

**Software Engineering Fellow**                                                               Remote
General Assembly                                                            Apr 2020 - July 2020
- Studied the latest front-end and back-end programming languages, tools, and methodologies including: HTML, CSS, JavaScript, React, AngularJS, Git, Github, and Agile/Scrum.

**Flight Attendant**                                                                       Atlanta, GA
Delta Air Lines                                                              Oct 2015 - July 2020
- Awarded two Gaining Altitude awards for outstanding customer service
- Solved problems in a high-pressure and fast paced environment
- Adapted to constantly changing flight schedules during irregular operations

## Education

**General Assembly**                                                                         Remote
Software Engineering Immersive                                              Apr 2020 - July 2020

**Mercer University**                                                                       Macon, GA
BA Political Science                                                         Aug 2011 - May 2015
